Course numbering system

First digit gives level	200 = introductory	300 = intermediate	400 = advanced		
Middle digit denotes discipline	1 = analytical,	2 = organic,	3 = physical,	4 = inorganic,	5 = multidisciplinary,
	7 = biochemistry,	9 = spectroscopy/spectrometry			
Last digit gives sequence

* All courses are 3 credits except where noted. There are eighteen (18) credits of electives that must include six (6) credits of general education courses and twelve (12) credits of out of program electives. All electives must be out of program (non CHEM). Some courses can be taken in Summer or online.

** CHEM 450 is a 6-credit course that is offered every term, including Summer. However, we recommend to take it over two terms. If taken over Fall and Winter, it counts as 3 credits in the Fall and 3 credits in the Winter.
