Because EXCI 258 is a combination of EXCI 257 and EXCI 358, students who have received credit for EXCI 257 or EXCI 358 may not take this course for credit. Also, because EXCI 259 is a combination of EXCI 357 and EXCI 358, students who have received credit for EXCI 357 or EXCI 358 may not take this course for credit.

## Course Overrides and Special Permission to Take HKAP Courses

Occasionally, you may have to contact your undergraduate academic advisor for a course override or special permission to take a core course in HKAP. A course override is required when a lecture section or a lab section of a core course is full, or a prerequisite of a core course is missing. However, because the new Student Information System has a Waiting List, course overrides will only be given under special circumstances. In the situation that you require a course override, you must provide the following information to your academic advisor:

1. Student ID number (8-digit number),
2. Course Name (CATA, EXCI, KCEP),
3. Course Number (262, 263, 252, 253, 254, 258, 259, 210),
4. Session ( $1=$ summer, $2=$ fall, $3=$ fall and winter, $4=$ winter $)$,
5. Course Section: $(01,02)$,
6. Lab Section (if applicable, 01, 02, 03, 04, 05, 06, 07, 08).

Please note that the Academic Advisor of the Department of Health, Kinesiology, and Applied Physiology can only provide you with overrides for CATA, EXCI, and KCEP courses. If you need an override for an elective course, it is your responsibility to contact the department offering the elective course.

Students in Health, Kinesiology, and Applied Physiology (HKAP) are not permitted to take the following courses for credit:

|  <br> NUMBER | COURSE TITLE |
| :--- | :--- |
| CHEM 208 | Chemistry in Our Lives |
| MATH 209 | Fundamental Mathematics II |
| MATH 212 | Fascinating World of Numbers |
| EXCI 202 | The Body Human: Form and Function |
| EXCI 204 | Food for Sport |
| EXCI 206 | The Science of Sport |
| EXCI 218 | Physical Growth and Maturation |
| EXCI 233 | Current Issues in Personal and Community Health |
| EXCI 251 | Fundamentals of Health and Physical Activity |

While in Health, Kinesiology, and Applied Physiology (HKAP), students will not receive credit if they take any of these courses. Furthermore, the grades obtained for these courses will not be used to calculate their cumulative and final graduation GPAs.
> Because HKAP students are in the Science sector of the Faculty of Arts \& Science, they are not allowed to register for CHEM 208. Only students outside of the Science sector may take CHEM 208.
> Students who have received credit or exemption for MATH 203 or equivalent may not take MATH 209 for credit.
> Students who have taken mathematics beyond the pre-calculus level may not take MATH 212 for credit.
> Also, HKAP students are not allowed to take the EXCI courses indicated above because these courses are elective courses for students outside of the Department of HKAP, otherwise known as Non-HKAP students.

## ELECTIVE COURSES: THE 24-CREDIT RULE

(Section 31.003)
$>$ In order to graduate, all students in the Faculty of Arts \& Science must successfully complete at least 24 credits outside his or her single discipline or department.
$>$ Within every block of 30 credits taken towards the degree, a student will normally choose no more than 24 credits from any one discipline or department.
$>$ Elective courses can be categorized as either Regular or General Education electives.
$>$ The categorization of an elective course will depend upon its origin.

| *The Department of Health, Kinesiology, \& Applied <br> sector of the Faculty of Arts \& Science. Therefore, elective courses taken in the Science <br> sector can only be counted as regular elective credits. As a result, elective courses taken <br> in the Science sector can never be counted as General Education (GE) elective credits. |  |  |  |

NOTE: NA = Not Applicable.
$>$ When you are registering for elective courses, choose courses of interest to you based on your future goals.

## THE GENERAL EDUCATION REQUIREMENT (Section 31.004)

$>$ All students in the Faculty of Arts and Science are required to satisfy the General Education (GE) requirement by successfully completing a minimum of 6 credits from course offerings outside the candidate's disciplinary sector.
$>$ The disciplinary sectors comprising the Faculty of Arts and Science are:

1. Humanities,
2. Social Science, and
3. Science.
$>$ Students may also count courses offered by Concordia University's other 3 faculties toward their General Education requirement:
4. the John Molson School of Business,
5. the Gina Cody School of Engineering and Computer Science, and
6. the Faculty of Fine Arts.
$>$ Students pursuing a second or subsequent undergraduate degree can receive an exemption from the GE requirement.
$>$ Students in Exercise Science can take GE courses with the following options:
7. Take 1 GE course in Humanities and 1 GE in Social Science,
8. Take 2 GE courses in Humanities, or
9. Take 2 GE courses in Social Science.
$>$ Students in Exercise Science may not take GE courses in the Science sector of the Faculty of Arts \& Science.

General Education (GE) courses can also be taken from the Faculty of Fine Arts, the John Molson School of Business, or the Gina Cody School of Engineering and Computer Science.

## GENERAL EDUCATION REQUIREMENTS

$>$ Courses falling under the administrative umbrella of Interdisciplinary Studies are considered for General Education requirement purposes to fall within the Social Sciences.
$>$ Students in a 90-credit degree who successfully complete an Honours program or a Specialization program from the Science disciplinary sector and who complete the Minor in Multidisciplinary Studies in Science offered by the Science College are considered to have met the General Education requirement.
$>$ Students enrolled in two areas of concentration which are both within the same disciplinary sector are required to take six credits outside of the sector. For example, students enrolled in a BA Major in History and a BA Major in Theological Studies, both of which fall within the Humanities, must fulfill the requirement by successfully completing either six credits from the Social Science or Science sector, or three credits from the Social Science sector and three credits from the Science sector, or six credits from outside the Faculty of Arts and Science.
$>$ Students enrolled in two areas of concentration drawn from different disciplinary sectors will be considered as having satisfied the General Education requirement. For example, students enrolled in a BA Major in Sociology (Social Science) and a BA Major in English (Humanities) will be considered as having satisfied the General Education requirement.
$>$ Students enrolled in an undergraduate certificate program are exempt from the General Education requirement.
$>$ Students pursuing a second or subsequent undergraduate degree are exempt from the General Education requirement.
$>$ English As a Second Language (ESL) courses or introductory English language courses are not considered as substitutions for this requirement.

Students in HKAP are not permitted to take the following courses for credit:
